

SuperWifi Combines Extended Range with Quick and Simplified Deployment for Remote Learning Hot Zones

Kryst Wireless offers Altai Technologies' wide selection of SuperWifi products with out-of-the-box, fast deployment and coverage range of up to a mile. SuperWifi is an ideal solution to address the connectivity chasm for large campuses, dispersed hot zones, remote housing clusters and many other challenging wireless connectivity scenarios for remote learning.

Altai's SuperWifi base stations are available with built-in omni and / or sectored antennas for super fast installation and provisioning.

For additional details, or to request a tailored SuperWifi proposal, reach out to Kryst Wireless at...
